**NATIONAL ENVIRONMENTAL POLICY ACT (NEPA)
ENVIRONMENTAL EVALUATION NOTIFICATION FORM**

To be completed by "Applicant," i.e., organization with responsibilities for a "Federal action" involving application to DOE for a permit, license, exemption or allocation, or other similar actions. For assistance with this Form, refer to "Instructions for Preparing ISC-CH F-560, Environmental Evaluation Notification Form."

Solicitation/Award No. (if applicable): DE-SC0023217

Organization Name: Johns Hopkins University

Proposed Action Title: The Baltimore Social-Environmental Collaborative IFL

Total DOE Funding/Total Funding: \$5,913,755.00

I. Project Description: *(Use explanation pages if additional space is required)*

A. Proposed Project/Action (if applicable, delineate Federally funded/Non-Federally funded portions)

The potential for environmental improvement noted in the research proposal refers to the fact that our research plan involves discussion of climate adaptation plans with Baltimore City officials and neighborhood groups. Our research project does not include any actual physical interventions in the form of buildings, landscape alteration, etc. The "improvement" may come if research findings that emerge from consultations with Baltimore City officials leads to any changes in their plans for climate adaptation projects in the city.

B. Would the project proceed without Federal funding?

Yes No

If "yes," use explanation page.

II. Description of Affected Environment: *(Use explanation pages if additional space is required)*

There is no specific affected environment. Our research includes observation and modeling of the Baltimore metropolitan area, including analysis of how initiatives external to the project--such as urban greening, floodwater management, air quality control, and other environmental measures--might alter environmental conditions. Our project will not directly affect any of these environments; it will provide analysis that has the potential to influence how decision makers choose to pursue their own planned environmental actions.
